Executive Summary

Aspiring Software Development Engineer (SDE) with hands-on experience in modern web technologies including React.js, Next.js, and Express. Adept at full-stack development, database management (MongoDB, SQLite), and version control. Committed to building robust, user-centric software solutions.

Education

B.E. Computer Science and Engineering, PPG Institute of Technology   2022 – 2026
- CGPA: 7.5/10.0

Higher Secondary Certificate (HSC), Vidya Vikas Matric Higher Secondary School   2020 – 2022
- Achieved 85%

Secondary School Leaving Certificate (SSLC), St. Paul's Matric Higher Secondary   2015 – 2020
School
- Achieved 78%

Experience

Java Developer Intern, Infosys   2025 – Present
- Gained hands-on experience in Java, contributing to real-world projects and solving complex problems.
- Developed and maintained robust Java-based applications, enhancing system stability and performance.

Full Stack Developer Intern, Cloves Inc.   July 2025
- Gained hands-on experience in SEO optimization, GEO-based routing, and production-level deployment using React, Node.js, and cloud platforms.
- Ensured high performance, scalability, and global accessibility for web applications.

React Developer Intern, Code Tech Pvt Ltd (Remote)   February 2025
- Worked on 3 scalable React.js applications for AI-powered tools.
- Improved front-end performance by 60% through code splitting and lazy loading, and reduced API response time by 35%.

Java Developer Intern, Appin Technologies Pvt Ltd   February 2025
- Learned about robust Java-based backend systems, enhancing application stability and performance.
- Built high-efficiency real-time applications, optimizing data throughput.

Project Lead, GR Group of Companies   2022 – 2024
- Explored and implemented various tools, including an online data monitoring automation system, CRM tools integration, and staff and expense management tools.

Event Organiser, Footloose Dance company   2023
- Gained experience in leadership, timely work completion, night shift team management, and problem-solving.
- Fostered creativity and teamwork in a fast-paced environment.

Projects

Full-stack E-commerce Site   Project link 1
- Developed a full-stack e-commerce site with a microservices architecture, using Next.js for the frontend and a Dockerized Express.js and MongoDB backend.
- Integrated key features including OTP verification, Razorpay payment gateway, automated invoice emails, user account creation, and order tracking, while implementing high brand identity and SEO with geo-based routing.

AI SaaS Application for Website Code Generation   Project link 2

- Developed an AI SaaS platform to generate website code using a modern tech stack including Next.js, Tailwind CSS, shadcn/ui, and Clerk for authentication.
- Utilized a backend powered by Prisma and Neon DB, with a sandbox environment for E2B, Inngest for background jobs, and an agent toolkit to streamline the code generation process.

Illuminaty Chats - Real-time Chatting App   Project link 3

- Developed a real-time mobile chatting application, Illuminaty Chats, using Kotlin, Java, and Android Studio.
- Implemented Firebase for live data transfer and real-time chatting functionality, ensuring a seamless and responsive user experience.

Vehicle Fuel Efficiency Calculator   Project link 4

- Created a full-stack web application to calculate vehicle fuel efficiency with a React (Vite) frontend and a Java Spring/MySQL backend.
- The application provides users with an intuitive interface for data entry and calculation, with a robust backend for data processing.

Advertisement Application Startup Research   Project link 5

- Conducted research and analysis for the Nextgenads advertisement application startup, focusing on market feasibility and core features.

College Profile Site with Admin Panel   Project link 6

- Developed a full-stack college profile website with an admin panel, utilizing Next.js, Tailwind CSS, Node.js (Express), and MongoDB.
- Implemented SEO best practices to ensure high visibility and easy management of site content via the admin panel.

Skills

Software Development: React, Vite, Next.js, TailwindCSS, Shadcn UI, SQLite, MongoDB, Version Control (Git), TypeScript, JavaScript, Java, Python, Ubuntu, DevOps, Prisma, Cloud Deployment, Sandbox E2b, Inngest

Soft/Business Skills: Startup Idea, Business Innovation, Leadership, Communication, Problem solving, Critical thinking, Event organizing, Creative design, Power BI

Languages: English (Fluent), Tamil (Fluent), Telugu (Basic)

Certifications

- DevOps Course completed with international certification on FITA Foundation Exam Certification by Infosys
- Java Foundation Certification by Infosys
- AWS APAC Solutions Architecture on Forage
- Fundamentals of Docker and Kubernetes on Forage

Achievements

- **1st Place** – Startup Pitch, Hindusthan IT College (2025)
- **1st Place** – Business Pitch, KGISL College (2025)
- **3rd Place** – Paper Presentation, Johnson College (2025)
- **1st Place** – Ideathon, Nehru College, Kerala (2024)
- **2nd Place** – Handloom Fashion Show (2024)
